Read the following:-

I

B.P. Routine No. 1095 dated 28th February 1933.

II

Board's Reference No.C. 2174/33-1 dated 10-4-1933.

III

Letter from F.W. Stewart Esq., C.I.E., I.C.S., Collector of Bellary, No. Ref. C. 973/33-B4 dated 28th April 1933.-

Ref:- Board's Refce. C.2174/33-1, dated 10-4-33.

--

The Special Malarial Officer suggested the following as anti-malarial measures in Siruguppa.

(A) Improvements to the Bagavadi channel.

(B) Filling the big excavations opposite to the Government Officials' quarters and the taluk office and preventing backing up of water from the Bagavadi channel.

(C) Removal of prickly pear and filling pits and depressions closing the disused wells or hermetically sealing their mouths with stone slabs.

(D) Prevention of promiscuous depositing of human filth by means of

(1) Construction of a large number of public latrines on more sanitary lines both for men and women.

(2) Encouraging people to construct more private latrines.

(3) Arranging for better conservancy especially of the canal banks and open sites.

(4) Preservation of special areas of ground for the storage of manure.

(E) Encouraging people to move themselves to higher ground on the south at least a mile away from the present place.

(F) Free and regular distribution of quinine.

2. As regards items C, D, E and F, I enclose a copy of Ref. C.R. 108/31 dated 5-9-1931 of the President, Union Board Siruguppa to the Special Malarial Officer.

3. In G.O. No. Ms. 715 P.H., dated 20-4-1931 Government approved the estimate of Rs.12,430/- for improvements to the Bagavadi channel (Items A) and the Executive Engineer has reported in his letter No. 7569 dated 13-9-1932 that this work was completed on 31-7-1932.

4. Item B consists of the following:

(1) Construction of cross masonry drains with soak pits in the rear of Revenue peons quarters - estimated cost Rs.405/-

(2) Filling up the pond in the north east of the block of the Revenue subordinates' quarters estimated cost Rs.4,730/-

(3) Filling up pits and depressions on the road side estimated cost Rs.1,040/-

In G.O. No. Ms. 2711 P.W. and Labour dated 21-12-32 communicated in R.P. Ms. 56 dated 9-1-33 Government approved the expenditure of Rs.4,730/- on items (1) and (2) and observed

that the District Board had already taken necessary steps with regard to item (3). The President, District Board, Bellary, is being asked whether all the pits have been closed. A sum of Rs.405/- for item (1) and a sum of Rs.1130/- for item (2) were sanctioned for expenditure during 1932-33 (please see Board's Reference C.No. 8457/32-6 dated 30-1-1933 and 14-2-1933). The Executive Engineer was asked, in this office L.Dis. 1081/33 dated 14-3-1933, to spend the full amount before the end of March 1933. He is being asked to report whether he has done so A further sum of Rs.4,215/- has to be spent on item (2) during the current year with the authorisation of the Board. From the above it is seen that item B has not been completed yet.

5. With reference to B.P. Mis. 2721 dated 13-9-1932 I have no out-of-door measures to propose at present. Under G.O. No. Ms. 192 (Finance) dated 4-4-1932, the allowances are to be withdrawn when the anti-malarial operations are taken. These are not yet complete. While I am not convinced of the necessity for these allowances, I do not think it reasonable to assume that the completion of the measures will immediately stop the malaria and recommend that the disease be observed by the Director of Public Health for a while before the allowances are stopped.

Copy of letter No. Ref. C.R. 108/31 dated 5-9-1931 from the President, Union Board, Siruguppa to the Special Malarial Officer, Madras.-

---

Reference.- Your letter 54/Mal. dated 21-8-31 regarding anti-malarial measures.

I have the honour to report on the anti-malarial operations carried out in this town since the date of your las inspection (1928) up to the end of August 1931.

The undermentioned anti-malarial measures were carried out during the period under report.

1. Closure of two big gravel pits, one on the Bellary-Siruguppa-Road side near Official quarters and the other on the Siruguppa-Adoni road side near the taluk office.

2. Closure of six unused wells.

3. Destruction of the prickly-pear at a cost of Rs.523-0-0 and complete removal of the same by the introduction of cochineal insect, which was brought by me all the way from Ramnad.

4. Closure of all insanitary pits except two namely one near the Vaddara keri and another to the north of the town, which will be closed, if funds permit next year. These are also to some extent filled up by the debris.

5. Partial levelling and drainage of the open grounds near Pinjari keri and northern boundary.

6. Provision of three plots in three different parts of the town for storage of manure, as adviced by the District Health Officer and stoppage of indiscriminate heaping of manure near houses. Care is taken that the manure heaps are not stored in pits, but are stacked on open grounds.

7 . Three masonry latrines with seats and stone flooring are constructed at a cost of Rs.2,220/- for females.

8. Appointment of an extra scavenger for picking up night soil on the channel bunds.

9. Increasing the number of private latrines from 33 to 65.

10. The President, District Board has been requested to sanction funds for filling up the big pit in front of the travellers' bungalow, in my Reference C.R.No.14/28 dated 3-6-30 and no reply has yet been received.

11. Quinine is freely distributed to the public through the Union agency from the funds provided by the Taluk Board.

12. Nothing can be done towards shifting the town to a healthy locality at present, on account of bad financial condition of the people. The only alternative is to improve the existing insanitary condition. The Panchayat funds are limited and special grants have provided for the purpose.

rses are availed of to represent to the

equirements of this town. About a fort-

night

fortnight back our Collector had camped here. The whole situation was explained to him. He was pleased to read your valuable report and inspect the localities on the channels. Undoubtedly he was impressed of your recommendations which is evidenced by his proceedings (a copy of which is enclosed for your kind perusal). The population of this place has again gone down by nearly 500. The District Board President has also been evincing keen interest to improve the town. But the Government is to be a little generous. Nothing tangible has been done as yet by but the Public Works Department and the Revenue Department in regard to various improvement suggested in your report. The irrigation channel that runs through the town is as insanitary and unsafe as it was during your inspection. The distributary channels are overgrown with rank vegetation and no action under kudimaramath Act has been enforced although special mention was made. Unless these standing menaces are removed, eradication of malaria in this town is a serious proble

---

RESOLUTION.

Submitted to Government.

2. The Board agrees with the Collector that it is n reasonable to assume that the completion of the measure specified in his letter will immediately stop the malar and would point out that even that stage has not yet be reached.

Memo to the Board of Revenue No. 3692 B-1 of 1932.
From the Board of Revenue Rt No. 240 & dt 1933.

Subject Allowances - Unhealthy localities - Singuppa in Bellary dt - discontinuance

Please see para 4 of G.O. 192 Fin dt the 4th April 1932 and the Board's reply on pages 7-11 C.F. The letters from the Collector of Bellary and the President of the Union Board, Singuppa detail the anti-malarial measures taken. The Board is of opinion that it is not reasonable to assume that the completion of the measures will immediately stop the malaria and points out that even that stage has not yet been reached.

7-11 C.F.

2. Submitted that the Board's report may be accepted and it may be asked to submit a further report on 1-7-34.

A draft memo is sub-d for approval.

L.S.G.

Medical and Revenue depts. may see it

Page 11 C.F

The Coll. says that he is "not convinced of the necessity for these allowances". He may want for a year more.
